Character Compass Program

Our signature framework that guides every learner to be responsible, respectful and resilient individual ready to face the ever-evolving world. Children learn these values through stories, reflections, real-life examples, and daily classroom actions — making character the heartbeat of learning.

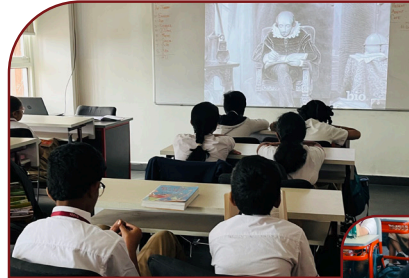

The True Directions of Life.

Language & Literacy Development

Our language development programs make reading and expression a joyful daily ritual.

Literacy Week

Show & Tell

“Snippets” Machine

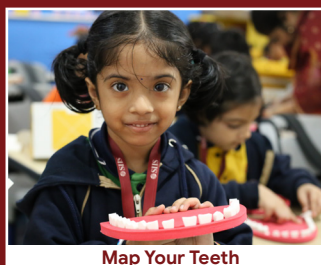

Guided Reading sessions

STEM Exploration

Our hands-on projects make curiosity contagious! The STEM Activities transforms abstract concepts into hands-on discovery. Students investigate, question, and design —developing logical thinking and creativity in equal measure.

Mechanical system of finding multiples

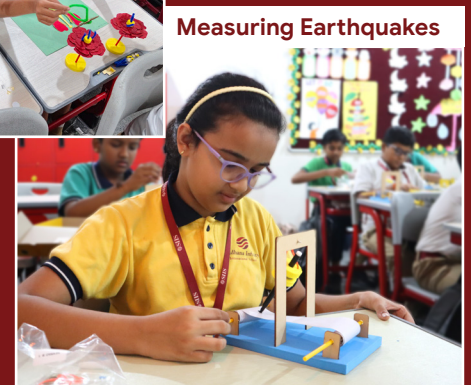

Map Your Teeth

Evidences Of Chemical Reactions

Pollination

Measuring Earthquakes

Enlivening Sports

Foundational stage will be engaged in coordination and free play and mainstream games starts from grade 3 onwards. Physical education at SIIS is viewed as an extension of the classroom.

Creative Arts and Wellness

The Creative Arts & Wellness program nurtures imagination, focus, and emotional well-being. Art, music, theatre, and movement are integral to the curriculum, allowing children to express themselves freely while developing discipline and confidence.

Welcome to Cambridge International

Empowering Young Minds to Think, Create, and Lead Globally

Designed by the University of Cambridge, the CIE Curriculum promotes depth of understanding, interdisciplinary application, and international mindedness.

Empowers learners to think critically, communicate effectively, and act responsibly in a rapidly changing world.

The Cambridge framework at SIIS inspires curiosity and builds lifelong learners through a balanced, skill-enriched curriculum. Cambridge Math, Science and English are popular for their global recognition, academic rigour, and focus on developing deep and real-world understanding of the subjects.

Cambridge Computing
– Builds digital fluency

Multilingualism

Cambridge Global Perspectives –
Cultivates awareness of global issues.

Pedagogy – Learning by Doing, Thinking, and Creating

Learning at SIIS is active, experiential, and collaborative.

Cambridge classrooms at SIIS thrive on activity and application-based learning. Every concept is experienced through projects, experiments, and reflective discussion that deepen understanding.

Through our pedagogy, students:

Higher-Order Thinking Skills

Student-Led Conferences

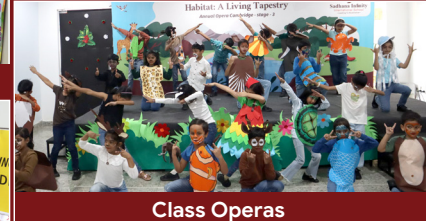

Interdisciplinary Projects

International School Collaborations

Community Reach Program

Class Operas

Assessment: Emphasis on Understanding Over Memorisation

Each child's progress is measured against global benchmarks, providing clear insight into their development and ensuring consistent academic growth and reflective learning.

Key Assessments:

- Progression Tests
- Cambridge Checkpoints

SCHOOL AWARDS

Achieving Sadhanaties

Indian Book of Records

Indian Book of Records for chanting 20 Shlokas from Chapter 12 of the Bhagavad Gita in just 169 seconds.
